## SUMMARY

---

To immerse myself in the world of AI and Machine Learning, applying my strong foundation in mathematics and programming. Excited to work alongside experts, tackle challenging tasks, and develop innovative solutions that push the boundaries of artificial intelligence.

## PROJECTS

---

### Online Inventory System

- Developed an online inventory management system to streamline inventory tracking and management processes, improving efficiency and reducing manual errors.
- Designed and implemented a user-friendly database for the Online Inventory Management System, allowing users to easily track and manage inventory levels, perform real-time updates, and generate custom reports.

## EDUCATION

---

2021 - 2025	Bachelor of Technology at <b>ACE ENGINEERING COLLEGE</b>	(CGPA: 9.11)
2019 - 2021	Intermediate at <b>Vishra Junior College</b>	(CGPA: 9.54)
2018 - 2019	Class 10th SSC	(CGPA : 9.5)

## TECHNICAL SKILLS

---

Strongest Areas	Data Structures and Algorithms
Programming Languages	C, Java, Python
Developer Tools	VS Code, Pycharm, Git
Databases	MySQL

## CERTIFICATES

---

Business English Certificate Preliminary	Cambridge English Entry Level Certificate
NPTEL	Joy of computing in Python
DIGITAL 101	NAASCOM

## EXTRA CURRICULAR ACTIVITIES

---

### Volunteer work

- Volunteer activities demonstrate your commitment to social causes and your willingness to contribute to the community. Include any volunteer work that's relevant to the job or highlights your teamwork and interpersonal skills.

## LANGUAGES

---

- ENGLISH
- TELUGU
- HINDI

## COURSEWORK/SKILLS

---

- Data Structures and Algorithms
- Database Management System
- Operating Systems
- OOP (Object-Oriented Programming)
- Machine Learning
